# INTERNSHIP CERTIFICATE

Software Development Engineering (SDE)

This is to certify that **Mr. Vikash Kumar** has successfully completed his **Software Development Internship (Backend, Automation & AI Systems)** at **Nandighosh Roadx Motors Pvt. Ltd.** during the period **12/07/2025 to 12/01/2026**

During the internship, he was actively involved in the **architecture, development, and implementation of a production-ready WhatsApp Business Automation platform** designed to streamline customer engagement and lead management.

**Key Responsibilities & Contributions**

- Designed and implemented an **end-to-end WhatsApp Business Cloud API chatbot** for automated customer communication
- Integrated **IndiaMART webhook APIs** for real-time lead capture, normalization, and database upsertion
- Developed **rule-based and AI-assisted conversational logic** to handle customer queries professionally
- Implemented **MongoDB-driven dynamic company configuration**, enabling non-technical updates via an admin dashboard
- Built backend services for **media messaging (images & videos),** message templates, and follow-up automation
- Designed **lead lifecycle management** with automated status tracking and follow-up scheduling
- Ensured **scalability, reliability, and compliance** with Meta WhatsApp platform policies

Throughout the internship, **Vikash demonstrated strong backend engineering skills, ownership of complex systems, and the ability to deliver real-world production solutions**. His problem solving approach, technical depth, and commitment significantly contributed to improving customer interaction workflows and operational efficiency.

We found his performance to be **exceptional,** marked by **professionalism, adaptability, and a strong understanding of modern software systems.** He consistently met expectations and often exceeded them.

We wish him every success in his future professional endeavors.

**For Nandighosh Roadx Motors Pvt. Ltd.**
